EXPERIENCE

Cyabra

August 2025 - December 2025

Fullstack Engineer Intern

Tel Aviv, Israel

- Built a profile analytics dashboard in Next.js surfacing data across millions of accounts on desktop and mobile.
- Engineered a CSV upload pipeline with backend API integration, processing 1,000+ profiles per upload with validation.
- Developed an advanced search feature enabling clients to filter, sort, and query across millions of profiles.
- Resolved critical frontend bugs across web application features, protecting 10+ high-value client relationships from churn.

Rewire Group

November 2023 - July 2025

Fullstack Engineer Intern

Albany, NY

- Refactored a legacy codebase spanning hundreds of files, modularizing structure and improving long-term maintainability.
- Developed and debugged web application features within a fullstack architecture, owning end-to-end UI across multiple product areas.

Pongspace

July 2022 - August 2022

Website Manager Intern

Brooklyn, NY

- Maintained and audited thousands of venue records, ensuring data accuracy and consistency across the platform.
- Built JavaScript automation scripts to streamline data entry, reducing manual input time and improving team efficiency.

PROJECTS

Tandem - React Native, Expo, TypeScript, Firebase

- Built a cross-platform React Native app with REST-style API flows for ride requests, chats, and ride history.
- Integrated Firebase authentication, real-time data sync, and location-based matching across rider and driver accounts.

SnakeAI - Python, Pygame

- Developed a Python reinforcement learning agent using Q-learning, reward shaping, and state-based decision logic.
- Implemented A* pathfinding, PyGame visualization, headless training mode, and persistent Q-table storage.

SKILLS

Languages: TypeScript, JavaScript, Java, Python, HTML, CSS

Frontend: React, React Native, Redux, Tailwind CSS, Next.js

Backend: Node.js, Firebase

Databases: Firestore, MongoDB, PostgreSQL

Tools: Git, GitHub, Azure DevOps, Bitbucket

EDUCATION

University at Albany, State University of New York

Spring 2026

Bachelor of Science, Computer Science

LEADERSHIP

Creative CoExistence

February 2022 - May 2023

President

- Organized events and fundraising initiatives to combat antisemitism, raising hundreds of dollars.
